9 December 1954

MEMORANDUM FOR: Chief, Logistics Office

SUBJECT : Dehumidified Storage Space -

25X1A6a

1. On 8 December 1954 the Project Review Committee considered a proposal initiated by the Office of the Deputy Director (Plans), concurred in by the Office of Communications and the Logistics Office, to provide dehumidified storage space at the support base for communications equipment.

25X1A6a

2. Representatives of the Office of Communications pointed out that they anticipated that the entire space (5,000 square feet) would be used for communications equipment and would not be available for the storage of any other supplies.

3. The Committee recommended to the Director that the Deputy Director (Administration) determine whether or not there were additional requirements for dehumidified storage space and make appropriate recommendations in connection therewith.

4. You are requested to study this matter and submit a report to me at an early date.
